Media and technology are at the very centre of all our lives today - especially our children's. The media content they consume and create has a profound impact on their social, emotional, cognitive, and physical development. Learning how to use media and technology wisely is an essential skill for life and learning in the 21st century. Parents and teachers can struggle to keep up with the rapidly changing digital world in which our children live and learn. Now more than ever, they need a trusted guide to help them navigate a world where change is the only constant.

We would recommend using the Common Sense Media website for practical advice on the suitability of movies, games, apps websites, TV shows, books and music.

We are now an academy!

We are pleased to announce that Lanivet and Cardinham Schools (Wheal Prosper Federation) joined the Truro & Penwith Academy Trust (TPAT) on the 1st June. The decision to join and the consultation period were in 2017 and we have been working with TPAT operationally since then, but we are now looking forward to working with our local hub schools Berrycoombe, Roche & St Dennis and our school improvement partners in Threemilestone and Chacewater in an official capacity.

We believe that this partnership will give us the support we need to raise standards and continue to improve the outcomes and experiences for our pupils.
