

# **Lanivet School**

## **Guide for Acceptable Use**

### **Live Lessons**

#### **Guidance for Teachers**

- ✓ Teachers will host weekly online sessions during any class bubble isolation or in the event of a local or national lockdown
- ✓ Teachers will follow the school's safeguarding policy.
- ✓ The school will send the invite for the virtual session to the parents' email address ahead of the scheduled lesson. These will be sent for the week by 0900 on Monday.
- ✓ Teachers will be dressed appropriately and remain professional throughout the video.
- ✓ Teachers will ensure no other family members are in view of the camera if broadcasting from home.
- ✓ Teachers will ensure they conduct all videoing with an appropriate background (being aware that photos and ways of identifying addresses etc is not possible when broadcasting from home).
- ✓ Teachers will not be expected to communicate with pupils outside the hours of 0900 and 16.30 pm.
- ✓ Online sessions will be recorded for safeguarding purposes.
- ✓ The teacher leading the session may 'lock' the room at a given time preventing anyone from joining after the start of the meeting.
- ✓ All sessions will have a meeting code and password.
- ✓ A waiting room will be used in all sessions ensuring that everyone is present when the teacher enters the 'room'.
- ✓ The chat function may be disabled.
- ✓ Only the teacher hosting can share their screen (displaying a piece of software etc.).
- ✓ The teacher leading the lesson will mute all members and unmute when contributing.
- ✓ If a pupil's behaviour is not acceptable within the session, a call will be made by the teacher leading the meeting to the parent after the session.
- ✓ Each session starts with the sharing of the 'Online Classroom Agreement'.
- ✓ At the end of the session, the lead teacher will 'end the meeting for all'.
- ✓ After each session, a log is completed to record that an online broadcast has been held noting any concerns or technical issues.
- ✓ A register of attendance will be taken for each session.
- ✓ Please give your child the space to participate independently and fully whilst you remain in ear and eye shot during the lesson.
- ✓ Parents should ensure that their child is aware of the need to behave in a session delivered by video link in the same way as if they were in school with the member of staff. If a pupil is behaving inappropriately, the teacher will ask them to leave the broadcast.
- ✓ Parents should ensure other family members are out of camera shot and do not contribute to the session.
- ✓ Parents should be mindful of protecting their own data by ensuring that their invite/calendar /email accounts are closed before allowing their child to use the device.
- ✓ Parents should ensure their child is familiar with how the whole process works.

- ✓ Parents should ensure that the display name shows the pupil's first name and surname.
- ✓ Plug in and close all other tabs: Video-conferencing uses a lot of machine power. It's a good idea to keep devices plugged into the mains power. It is also a good idea to minimise the number of devices online in the house whilst the broadcast is in session.
- ✓ Do a practice run: Role-playing is a great way to prepare your child for what's expected in the 'video class' environment. If you have two devices, you can set yourself up on the platform they will be using, or just use FaceTime and video-chat as if you're leading the class. Pretend you are the teacher and send your child an invite for a meeting.
- ✓ Set expectations for how your child should conduct themselves on camera: Face the screen; mute themselves when they are not speaking; unmute yourself when you're ready to talk; turn off the camera if you need to blow your nose etc.
- ✓ Just like in school, we might have a drink of water to hand but we would not eat snacks during a lesson, so we will not do this during a broadcast.
- ✓ Assemble necessary equipment: Pupils may need earphones, a microphone, and paper and pencils to take notes.
- ✓ Consider the background. Help them carve out a space where they can have peace and quiet.
- ✓ Do not take devices into the bathroom. Just as with regular school, pupils should go to the bathroom before class. If there is an emergency, make sure your child knows how to temporarily disable the video and mute themselves and then turn everything back on again.
- ✓ Be respectful of others. As in the classroom we expect our pupils to be courteous to the teacher and to others. Please impress upon them the fact that this is an unusual time for everyone, and appropriate behaviour should be maintained at all times.

## Guidance for Pupils

- ✓ At the start of the lesson, pupils will be shown the expected behaviours reminder detailing the 'Online Classroom Agreement' which include how pupils can signal that they wish to speak, just like in the classroom in school.
- ✓ Pupils must be dressed appropriately for the duration of the video lesson. This does not need to be school uniform.
- ✓ Pupils must remain on mute until they are invited to speak.
- ✓ Pupils should be ready and waiting at the starting time of the session – this means work out ready, with all equipment needed and ready to look, listen and learn.
- ✓ Pupils are prohibited from recording or capturing/screen grabbing content from the video call.
- ✓ Pupils should remain in a public part of their house where an adult can see them and where there are not any personal photos etc. on display.
- ✓ Devices should not be used anywhere in the house your parents do not give permission for instance too many personal details.
- ✓ Parents, please remember to remain in close proximity to your child
- ✓ Show respect and good manners at all times.
